

Vision Therapy Policies

Fees

- The fee is \$55.00 per session for an in-office vision therapy session. In addition to actual treatment time, it includes the time that is necessary to make an individualized program plan unique to each patient's needs.
- Payment for vision therapy is expected on a weekly basis.
- **All Fees** for therapy are the responsibility of the parent, guardian, or patient.
- Some **Medical Insurance** policies will help with the cost of vision therapy. Please see the **Insurance Check List for Vision Therapy** sheet for information on how to determine if your medical insurance covers vision therapy.

Missed Appointments-Rescheduling Appointments

Excessive cancellations and missed visits affect our ability to provide optimal care. To obtain the greatest success with vision therapy, consistency is needed. In order to obtain maximum gains, in a reasonable time frame, we have adopted the following policies:

- Missed appointments **REQUIRE** a makeup visit. This can be scheduled within the same week or added to the end of the regularly scheduled therapy. This may result in having **2** therapy sessions in one week or an additional week of therapy.
- **24 Hour Noticed Is Required.** If this is not possible we ask for as much notice as possible.
- **When notifying** us that you are unable to attend the originally scheduled appointment, please have your calendar available to schedule a makeup appointment.
- **If missed appointments become excessive,** the vision therapy program may be terminated at our discretion.
